## Rethinking Model of Outpatient Diabetes care utilising E health - REMODEL by Dr Anish Menon

Endocrinologist and PhD Candidate, Dr Anish Menon is currently working on a project to use 'mobile health' for helping people with diabetes and improve the efficacy of tertiary diabetes clinics.

Dr Anish Menon's research focuses on redesigning service delivery for people with type 2 diabetes to achieve better clinical outcomes and improve the experiences for both patients and service providers.

**Date:** 24 April 2018  
**Time:** 12:30 - 1:30 pm  
**Location:** Room 2007  
Translational Research Institute
