

Centre of Research Excellence in Telehealth

UQ Centre for Health Services Research

Dr Brent Richards

MB ChB, FRACP, FJFICM, FCICM
Medical Director of Innovation, Director of Critical Care
Research, Gold Coast Health

AI is disrupting Healthcare – are you ready?

Associate Professor Brent Richards is Medical Director of Innovation and Director of Critical Care Research at Gold Coast Hospital and Health Service, and Associate Professor at Griffith and Bond Universities. He was previously also director of ICU for 15 years, executive director of Surgery, and chair of the state Intensive Care network.

Realising the opportunities and responsibilities in the big data sets being created in Healthcare, Brent is working on ways to expand, understand and interrogate these data sets for clinical understanding, business KPIs and research possibilities. He has co-founded IntelliHQ, a not-for-profit organisation bringing together start-ups, industry partners, researchers and educators to work collaboratively to unlock the potential that AI can bring to Healthcare, improving both patient and system outcomes.

Date: Wednesday, 6 March 2019

Time: 12:00pm – 1:30pm (QLD Time)
