Health Economics Research Fellow,
Centre for Health Services Research,
The University of Queensland

Performing economic evaluations for Telehealth services

Dr Snoswell is the Health Economics Research Fellow with the CRE in Telehealth, and was first author on the health economics methods paper as part of the CRE paper series. Using practical examples, she will outline how to include health economics in telehealth evaluations.

Her research focuses on the economic evaluation of telehealth within many different specialties for the CRE in Telehealth. She is currently using modelling to simulate the economic efficiency of implementing telehealth initiatives for chronic conditions and into clinical services.
