

# Health Informatics Seminar Series

## UQ Centre for Health Services Research & Queensland Health

### Prof Andrew Burton-Jones

B.Com (Hons 1), M. Inf. Sys., Ph.D  
Professor, UQ Business School, The University of Queensland

### Natalie Smith

MBusRsch, BCompSc  
PhD Candidate, The University of Queensland

## Evaluating Digital Transformation: The Move to an Evidence-Based Approach

In this presentation, we will describe a program of work we have been undertaking on the evaluation of digital transformation in healthcare. We will begin by describing how the literature on evaluating digital transformation in healthcare is marked by a surprising lack of coherence and progress. We will then describe a lens from the organizational sciences – institutional theory – that we have found helpful for understanding these problems and what might be done about them (Burton-Jones et al. in press). We will also describe our ongoing research that is motivated by solutions we see from this new lens. In particular, our work suggests the need for a more evidence-based approach to evaluating and governing digital transformation, and we outline what current evidence appears to suggest.

**Date:** Tuesday, 27 August 2019  
**Time:** 12:00pm – 12:30pm (Lunch PAH attendees)  
12:30pm – 1:30pm (Seminar Presentation)  
**Location:** Room 2004, Translational Research Institute  
Princess Alexandra Hospital  
Woolloongabba QLD 4029

**To attend from Herston  
Campus, please go to CSDS,  
Level 4, Conference Room 1**

A **light lunch** will be served at the PAH from **12 noon** for those who **RSVP by 21 August 2019** – please advise us of any dietary requirements by emailing [chsr@uq.edu.au](mailto:chsr@uq.edu.au)

Please also join via Zoom Video Conference using Meeting ID: **973-778-229**

Join from PC, Mac, Linux, iOS or Android: <https://uqz.zoom.us/j/973778229>
