

GERIATRIC MEDICINE SEMINAR SERIES

Centre for Health Services Research

Reducing Medical Admissions and Presentations into Hospital through Optimising Medicines (REMAIN HOME) Study at 30 Days: a stepped-wedge cluster randomised controlled trial

Associate Prof Chris Freeman

BPharm, GDipClinPharm, PhD, AACPA, AdvPracPharm, MAICD, FPS

A/Prof Chris Freeman graduated with a Bachelor of Pharmacy from James Cook University and has gone on to complete a Graduate Diploma in Clinical Pharmacy and a PhD from the University of Queensland. Chris' major research theme is on developing the evidence to support future roles for pharmacists in the healthcare setting. He is particularly interested in further developing the evidence for the pharmacist working in a collaborative model in the Australian primary care setting. In 2012, Chris became the first Australian pharmacist to obtain specialisation in ambulatory care pharmacy under the Board of Pharmacy Specialties (USA) and in 2015 was a part of the initial cohort credentialed as Advanced Practice Pharmacists.

Chris was awarded the Pharmaceutical Society of Australia's (PSA) Young Pharmacist of the Year in 2011 and the Australian Association of Consultant Pharmacy's (AACP) Consultant Pharmacist of the Year in 2014 for his contribution to the advancement of patient care and to the pharmacy profession.

Amongst other roles A/Prof Freeman presently works as a Consultant Pharmacist at Camp Hill Healthcare, as a Clinical Associate Professor and NHMRC TRIP Fellow at the University of Queensland and is the National President of the Pharmaceutical Society of Australia.
