Geriatrician

Obesity has become one of the most significant health problems worldwide, affecting more than one-third of the global population. The elderly population is not immune to this proportional increase in obesity. To date, there is no cure for obesity, but surgery is the most effective treatment available today.

Please join our panel of presenters from the Princess Alexandra Hospital for this virtual seminar.

Date: Wednesday 12 August 2020

Time: 12.30 – 1.30pm

Location: Webinar Teleconference – details below

Please note this meeting is a **Webinar Teleconference**.
